

The Melvin Price Park Memorial Planting Program provides residents the opportunity to purchase a tree or shrub in memory of a loved one or to honor a special occasion. Your participation in the Memorial Planting Program will not only provide a lasting memory, but will also help to beautify our parks and trails. In addition to the tree(s) or shrub(s), a plaque will be placed to include the name of the plant, year of dedication, name of person the memorial is for and a brief personalized message.

**Disclaimer:** Due to potential future park improvements at the park site that may conflict with the existing location of a planted memorial tree, the Village reserves the right to relocate and/or replace any memorial tree within the park as long as the new location is in keeping with the overall park design. Reasonable efforts to contact the initial requestor will be made in advance of any relocation/replacement efforts.
