EXHIBIT A

§ 154.080 "PB" - PLANNED BUSINESS DISTRICT.

(A) *General.*

(1) The PB Planned Business District is intended to provide for maximum commercial site design and utilization in areas favorable for commercial growth, but which may experience a variety of developmental problems. These problems may relate to existing or future traffic patterns, land acquisition, topography, utilities and related areas. The PB District provides maximum flexibility for the developer to create an attractive, profitable, commercial enterprise while allowing the village to maximize vehicular and pedestrian safety, reduce potential capital expenditures for public improvements and create a more attractive community.

(2) Although the primary intent of the PB District is to provide for commercial development, the district also provides for the combination of different types of uses into a planned unit development. As an example, a parcel of property could be utilized as a planned unit development and contain a restaurant, retail shops, offices and multiple-family housing, all coexisting as an integrated complex.
